

Table 2 - Participating Faculty Members				
Name/Degree	Rank	Department (Primary & Secondary)	Role in Program	Research Expertise
John B. Stokes, M.D.	Professor	Internal Medicine	Project Director	Ion transport/cell biology/Clinical Trials
Christopher Adams, MD, PhD	Assistant Professor	Internal Medicine/ Molecular Physiology & Biophysics	Faculty	Cell Biology/Hypertension/Diabetes
Gail Bishop, PhD	Professor	Microbiology/ Internal Medicine	Faculty	Immunology
Patrick Brophy, MD	Associate Professor	Pediatrics	Faculty	Kidney Development/Clinical trials
Kevin Campbell, Ph.D.	Professor	Molecular Physiology & Biophysics	Faculty	Molecular and cell biology/
Mark Chapleau, Ph.D.	Professor	Internal Medicine/ Molecular Physiology & Biophysics	Faculty	Hypertension
Alan Christensen, PhD	Professor	Psychology & Internal Medicine	Faculty	Behavior modification in chronic disease
Peter Cram, MD	Associate Professor	Internal Medicine	Faculty	Health Services Research
Beverly Davidson, PhD	Professor	Internal Medicine/ Molecular Physiology & Biophysics	Faculty	Gene therapy
Bradley S. Dixon, M.D.	Associate Professor	Internal Medicine	Co-leader, Clinical Investigation	Clinical Trials in kidney disease
John Englehardt, PhD	Professor	Anatomy and Cell Biology & Internal Medicine	Faculty	Cell Biology; Gene therapy
Robert B. Felder, MD	Professor	Internal Medicine	Faculty	Hypertension
William Haynes, M.D.	Professor	Internal Medicine	Faculty	Translational research in kidney disease
Donald Heistad, M.D.	Professor	Internal Medicine & Pharmacology	Faculty	Hypertension/Biology of the circulation
Lawrence G. Hunsicker, M.D.	Professor	Internal Medicine	Senior Advisor, Clinical Investigation	Clinical trials/epidemiology

Table 2 - Participating Faculty Members				
Name/Degree	Rank	Department (Primary & Secondary)	Role in Program	Research Expertise
A. Kim Johnson, Ph.D.	Professor	Psychology & Pharmacology	Faculty	Hypertension/Neural control of body fluid & CV homeostasis
Peter Kaboli, MD	Associate Professor	Internal Medicine	Faculty	Health Services Research
Ulla Kopp Ph.D.	Professor	Internal Medicine	Faculty	Neural regulation of kidney
Karl J. Kreder, MD	Professor	Urology	Faculty	Clinical Trials
Anne E. Kwitek, PhD	Associate Professor	Pharmacology, Internal Medicine & Molecular Physiology and Biophysics	Faculty	Molecular Genetics of Hypertension
David G. Motto, MD, PhD	Assistant Professor	Internal Medicine & Pediatrics	Faculty	Translational Medicine and kidney disease
Jeff Murray, M.D.	Professor	Pediatrics and Dental Research	Faculty	Molecular genetics
Robert C. Piper, PhD	Professor	Molecular Physiology & Biophysics	Faculty	Molecular Biology
Gary Rosenthal, MD	Professor	Internal Medicine	Co-leader, Clinical Investigation	Translational /Health Services Research
Andy Russo, Ph.D.	Professor	Molecular Physiology & Biophysics	Faculty	Molecular biology/hypertension
Deborah L. Segaloff, PhD	Professor	Molecular Physiology & Biophysics	Faculty	Cell Biology
Val Sheffield, M.D., Ph.D.	Professor	Pediatrics	Faculty	Molecular genetics/hypertension
Curt Sigmund, Ph.D.	Professor	Head, Pharmacology, Internal Medicine	Leader - Hypertension	Molecular biology/hypertension/
Richard Smith, MD, PhD	Professor	Oto/Internal Medicine	Executive Committee	Molecular Genetics of kidney disease
Peter M. Snyder, MD	Professor	Internal Medicine	Faculty	Cell Biology
Christie Thomas, MD	Professor	Internal Medicine	Leader - Cell Biology	Molecular biology/hypertension
Robert Wallace, M.D.	Professor	Epidemiology	Faculty	Epidemiology

Table 2 - Participating Faculty Members				
Name/Degree	Rank	Department (Primary & Secondary)	Role in Program	Research Expertise
Michael Welsh, M.D.	Professor	Internal Medicine/ Molecular Physiology & Biophysics	Faculty	Ion transport/Cell Biology
Mark Yorek, Ph.D.	Professor	Internal Medicine	Faculty	Carbohydrates and signaling
Nicholas Zavazava, MD, PhD	Professor	Internal Medicine	Faculty	Immunology and Genetic Engineering
